Environmental Leadership

The following centennial proposal is certified as eligible for Centennial Challenge funding consideration in fiscal year 2008. Funding for the Centennial Challenge requires legislation.

Congaree National Park: "Green" Campground Restroom Facility

Location: [Congaree National Park campground, Hopkins, South Carolina](#)
Partner(s): [Friends of Congaree Swamp](#)
Partner Website:
Total Cost: \$18,800
Proposal # [PMIS# 94164](#)

Summary: This project will replace the existing, outdated, porta- john restroom facility at the park's only campground with an ADA- accessible, UV- powered composting or "Sweet- Smelling" restroom facility. This project will not only lower the operational costs associated with the park's existing, sub- par, rented facility, but will also demonstrate environmental leadership through the use of state- of- the- art "green" technologies, and provide access for visitors with disabilities.
